

American Steel Fence Posts

AMERICAN STEEL AND WIRE COMPANY

Cheaper

Than

Wood

And More

Durable-Galvanized Inside & Out

HERE IS WHAT YOU WILL FIND BUILT INTO EVERY AMERICAN STEEL POST

SERVICE

The American Steel Fence Post will give much more and much better service than can be expected of wood posts because every American Post is just like every other American Post, and you get the benefit of every post in the fence from year to year, while the wood posts burn, rot and decay from the start. —

STRENGTH

Line posts strong enough to hold up any wire fence and furnish all necessary resistance. End and corner posts so strong that they will maintain any wire fence made. —

QUALITY

Made of suitable high-class steel, heavily coated with zinc inside and outside. —

ADAPTABILITY

Adapted to all conditions and will prove absolutely satisfactory wherever a good wire fence is desired, no matter how heavy the wire or how hard the usage after the fence is erected. —

DURABILITY

American Steel Posts have been in service since 1898, in every section of the United States, and the oldest posts are today as good as when set.

WHICH?

COMPARE THESE POSTS

Your Stock is Protected *from* Lightning

	STEEL	WOOD
Lightning Protection	Complete	None
Cost of Digging Line Post-Holes	None	Big Item
One Man Can Set in Day	Average 300	Average 50
